

Developing national and local frameworks for the implementation of the New Urban Agenda

Join us for a conversation among multiple actors about implementation frameworks for the New Urban Agenda (NUA).

South Africa is crafting a Localisation Framework for the NUA to support the development of concrete plans by sector stakeholders. In consultation with a wide range of actors, under the National Forum on Human Settlements and Urban Development, we have assessed the status quo and seek to foster partnership networks with relevant actors, to support the implementation of the NUA.

The networking event will explore how to give effect to the commitments in the NUA. It will focus on ways in which multiple actors and roleplayers can collaborate to ensure planning and implementation are aligned, urban development is sustainable and inclusive, and Agenda 2030 and its Sustainable Development Goals are achieved.

**Thursday 8 February
from 9:00–11:00**

**Room 304,
Kuala Lumpur Convention Centre**
